REMARKS.—Many gloomy days, heavy rainfall on fewer days than usual, fogs and gales in excess of the average, low minimum on the grass; snow seen in sheltered drifts on the 8th, 19, 23 days after the first fall on Jan 16th. Barometer: range 1.075, mean 2.904, i.e., 0.072 too low. Temperature: range 21°; mean 49°; e., 1-0 too low; the mean was too low on sixteen days; for the 8th, the warmest day, it was 48°9 or 5°1 too high; for the 27th, the coldest day, it was 36°8, or 8°0 too low. Rainfall 0.608 in. too high; maximum 0.890 in., which fell in about nineteen hours on the 23rd-24th. Mean temperature of sea near shore, a.m., 42°0, i.e., 2°5 too low. Bright sunshine: total record 74 hours, or 27 per cent. of the possible amount; full record on no day; eleven days sunless; week ending in the day by the absolutely sunless, a fact which occurred last with the week ending Jan. 11th, 1880. On Feb. 7th, a wet, gloomy day; the maximum registered in the day by the solar maximum thermometer was 42°; the temperature rose in the evening; the highest reading being 50°0 at 9 p.m., i.e., the shade maximum for the twenty-four hours was 8°0 above the solar maximum.

THE EFFECT of ONE taken in a little water on ordinary. No family should winter. Sold by Chemists at throughout the world at 1s. 11d. A great saving in taking far Established over Prepared only by THOMAS POWELL, London. LION, NET, and MOUSE! ASK for POWELL'S BALSAM

FOR THE BLOOD CLARIFIER WORLD FAMED BLOOD MIXTURE TRADE MARK—"BLO" The Great Blood Purifier FOR CLEANSING and BLOOD from ALL IN be too highly recommended. For Scrofula, Scurvy, Skin kinds it is a never failing and p It Cures Old Sores, Cures Ulcerated Sores in the Cures Ulcerated Sore Legs, Cures Blackheads, or Pimples Cures Scoury Sores, Cures Cancerous Ulcers, Cures Blood and Skin Diseases, Cures Glandular Swelling, Clears the Blood from all Imp Matter, from whatever cause As this Mixture is pleasant to free from anything injurious constitution of either sex— sufferers to give it a trial THOUSANDS OF TESTIMONIALS ALL PAR

Sold in Bottles 2s. 6d. each, at six times the quantity, 11s. each permanent cure in the great majority of cases, by all Chemists and Pat throughout the World or sent stamps, by F. J. CLARK & CO., CHELSEA, JERSEY—Sole by WOODS, BARNFORD-STREET, St. Helier's

no point does not seem, however, to have been taken as yet. Another question of importance is special appointment to the Queen.—[Adm.]

REMARKS.—Unusual prevalence of strong cold winds from the 1st to the 8th, and from the 17th to the 20th: very dry; few fine days. Barometer: mean, 29.944; i.e., 0.061 too high: range very small, viz., 0.765, i.e., 0.477 too low. Temperature: range very great, viz., 31° 7', or 6° 4' too high; mean, 48° 2', i.e., 0° 7' too low: the mean was too low on 20 days; for the 18th, the warmest day, it was 57° 6', i.e., 10° 2' too high; for the 4th, the coldest day, it was 41° 3', i.e., 6° 2' too low. Rainfall, the least since last May, and 1.43 in. too low; maximum, the lowest since June, 1877, viz., 0.227 in., which fell in about six hours on the 18th. Mean temperature of sea near shore, a.m., 46°, i.e., 8° 0' too low. Bright sunshine: total record 138.5 hours, or 83 per cent. of the possible amount; full record on no day, the brightest day being the 15th, on which the sun shone for twelve consecutive hours; no record on three days. Onekoo heard on the 14th; lilas in flower on the 30th; the average day in both cases. Very severe ground frost, lasting from about sunset to sunrise on the night of the 31st-2nd.

REMARKS.—Weather generally unsettled, but an unusual number of very fine bright days, heavy rain-fall, extraordinary fall of temperature from the 5th to the 11th. Barometer: mean, 30.067, i.e., 0.067 in. too high; range 0.860, i.e., 0.123 too high. Temperature: range 81° F., i.e., 8° too high; mean, 57° F., i.e., 1° too low; the mean was too low on twenty-two days; for the let the warmest day, it was 80° F., i.e., 3° too high; for the 8th, the coldest day, it was 49° F., i.e., 7° too low. Rainfall 1.017 in. too high; maximum, 0.810 in., which fell in about seventeen hours on the 10th and 11th. Mean temperature of sea near shore, a.m., 56° F., i.e., 0° too low. Bright sunshine: total record 267.3 hours, or 93 per cent. of the possible amount; no day was absolutely sunless, and 18 days the record exceeded 12 hours. What in fact on the 11th, in flower on the 19th. Fall on the 5th and 6th, a very fine phenomenon in June. The estimated force of the wind at 9 a.m. and 9 p.m. gives a mean of only 1.44, being less than for any month during the last 43 years in which.

REMARKS.—One of the finest summer months on record, in general, bright, calm, warm, and dry; great heat on the 5th and 16th. Barometer mean, 30.108. Lat. 0.055 in. too high; range, quite extraordinary, viz., 86° F., the mean was too high on seventeen days; for the 16th, the warmest day, it was 77° F., i.e., 14° too high; for the 25th, the coldest day, it was 57° F., i.e., 4° too low. Rainfall, 0.212 in. too low; maximum, unusually high, viz., 0.915 in., which fell in about fourteen hours on the 25th and 26th. Mean temperature of sea near shore, am., 60° 38', i.e., 0° 34' too high. Bright sunshine; total record 284 hours, i.e., 67 per cent. of the possible amount; no record on three days, fall record on seven days; on 18 days the record was 10 hours and upwards, including five days on which the record exceeded 14 hours; for the month ending July 21st, the record amounted to 329 hours. Calms were entered 18 times instead of five, the average and heavy dew 14 times instead of eight. We have had 43 very fine days since May 1st, the average for the three months being 28. Wheat harvest begun on July 28th, the average day being August 1st.

advice to do so has been freely tendered by the Agents who are in the habit of seeing I ever saw. Sold by all Chemists in Boxes at N.B.—Agents Wanted where not represented. 12 No risk or outlay.

hall-street, London, E.C.

for more than two years. They are the best medicine I ever saw. Sold by all Chemists in Boxes at N.B.—Agents Wanted where not represented. 12 No risk or outlay.

																		N.B.—The necessary corrections for "index error" have been applied to the instrumental readings.	

REMARKS.—Cold for the season up to the 13th, warmer afterwards. In general a calm, bright, dry and fine month: the driest September but three for the last 17 years at least. Barometer: mean, 30.036, i.e., 0.006 too low; range 0.927. Temperature: range, 25° to 59°, i.e., 1° too low; the mean was too low on 20 days; for the warmest day, the 18th, it was 67° 0, i.e., 5° 9 too high; for the coldest day, the 1st, it was 55° 9, i.e., 8° 1 too low. Rainfall 2.087 too low; maximum 0.330 in, which fell in about four hours on the 7th and 8th; on the 21st 0.204 in, fell in about one hour. Mean temperature of sea near shore, a.m., 61° 2, i.e., 0.6 too low. Bright sunshine: total record 181 hours, or 48 per cent. of the possible amount; full record on three days, no record on two days, on eight days the record exceeded ten hours. Heavy dews were entered 19 times instead of 13, the average, and calms 14 times instead of 6. Owing to the number of calm evenings, the mean force of the wind for the month viz. 1.2 is the lowest yet recorded at St. Aubin's. From May 1st to September 30th, we may expect 30 entries of calm (i.e., wind force 0) at 9 a.m. and 9 p.m., this year the entries amount to 38 for the five months, or very nearly double the average. The mean humidity for the month, deduced from the readings of the hygrometer, is 84.1, i.e., the average.

REMARKS.—Remarkable prevalence of cold winds, hence generally low temperature; weather very unsettled, more fine days and less rain than usual. Barometer : mean, 30.030, i.e., 0.065 in too high; range 1.332. Temperature: range, 25° i.e., 38° too low; for the week ending the 31st; the mean was only 45° or 6° too low. Rainfall 0.826 in. too low; maximum 0.473 in, which fell in about eight hours on the 22nd. Mean temperature of sea near shore, a.m., 51° 56', i.e., 2° too low. Bright sunshine: total record 161 hours, or 49 per cent. of the possible amount; full record on three days, no record on one day, on three days the record exceeded ten hours. The mean humidity for the month (obtained from the readings of the dry and wet bulb thermometers) is 79, the average being 80. Heavy gale on the 14th.

REMARKS.—Extremely mild; prevalence of warm winds; fine days, last week of the month wet and stormy. Barometer: mean, 30.054, i.e., 0.099 in too high; range, 1.250, i.e., 0.176 in too low. Temperature: range 50.8, i.e., 6.9 too high; mean, 52.1, i.e., 1.2 higher than October, and 4.6 above the average, the mean was too high on 27 days; for the 8th, the warmest day, it was 59.7, i.e., 10.4 too high; for the 1st, the coldest day, it was 39.0, i.e., 11.3 too low. The absolute maxima in sun and shade, viz., 112.3 and 65.1 are quite extraordinary. Rainfall, maximum 1.040 in, which fell in about thirteen hours on the 26th, for the month the fall is 1.120 in, too low. Mean temperature of sea near shore, a.m., 52.3, i.e., 1.3 too low. Humidity 87, or 6 too high; heavy dew 17, or 11 too high. Bright sunshine: total record 76 hours, or 20 per cent. of the possible amount: full record on no day, no record on eight days; the record exceeded five hours on six days only. Great variations of temperature at the beginning of the month, heavy gales, rain and squalls from the 26th to 28th.

N.B.—The necessary corrections for "index error" have been applied to the instrumental readings.

REMARKS.—An average month in many respects: middle of the month wet and squally; no rain after 22nd. Barometer: mean, 30.094, i.e., 0.079 too high; high readings from 23rd to 28th range, 1.606, i.e., 0.259 too high. Temperature: range 28°-4°, i.e., 12° too low; mean, 43° 6', i.e., 0° 2' too low; the evenings were rather warmer than the mornings; the mean was too high on 16 days; for the 2nd, the warmest day, it was 50° 7', i.e., 5° 4' too high; for the 25th, the coldest day, it was 36° 5', i.e., 5° 8' too low. Frost was not registered once in the air, and only nine times on the grass. Rainfall, maximum 0.865 in. which fell in about six hours on the 9th to 10th. The fall for the month is 0.892 too high. Mean temperature of sea water near shore, a.m., 47° 7', i.e., 1° 7' too high. Hail fell on twelve days instead of six, the average. Bright sunshine: total record 76 hours, or 31 per cent. of the possible amount; a full record was obtained on two days, no record on six days; on seven days the record exceeded five hours. Relative humidity of the air (obtained from the readings of the hygrometer) 87, the average being 81.
